

Organic Honey Market is estimated to be US\$ 1528.40 million by 2030 with a CAGR of 7.50% during the forecast period

The Global Organic Honey market accounted for US\$ 743.23 million in 2020 and is estimated to be US\$ 1528.40 million by 2030 and is anticipated to register a CAGR of 7.50%. Organic honey is honey made without the use of chemical miticides to treat bees and from pollen from organically grown plants. Organic honey is free of pesticides since it is not sprayed on or near the plants that honeybees visit. Organic honey is also obtained directly from the colony of bees. Small bugs and debris, such as beeswax, pollen, and parts of dead bees, are routinely removed from honey by the beekeeper. Various government authorities certify this type of honey, depending on the continent. To obtain these certifications, the beekeeper must adhere to a set of tight norms and regulations throughout the extraction, packing, and transportation processes.

The report " **Global Organic Honey Market, By Type (Mixed Organic Honey, Manuka Organic Honey, Clover Organic Honey, and Other Organic Honey), By Application (Glass Jar and Plastic Containers), and By Region (North America, Europe, Asia Pacific, Latin America, and Middle East & Africa) - Trends, Analysis and Forecast till 2029**"
