

Drill Pipe Market is estimated to be US\$ 10.98 billion by 2030 with a CAGR of 7.50% during the forecast period

Global Drill Pipe Market accounted for US\$ 5.34 billion in 2020 and is estimated to be US\$ 10.98 billion by 2030 and is anticipated to register a CAGR of 7.5%. Drill pipe is a tubular steel conduit that connects the top of the rig to the bottom hole assembly. Drill pipe contains specific threaded ends known as tool joints, which are utilised to transfer drilling fluid to the rig drilling bit and reduce torque created in the pipe. A drill string is a collection of drill pipes that are connected using various connectors to keep the rig's length and secure the pipe junction.

The report " Global Drill Pipe Market, By Grade (API Grade and Premium Grade), By End User (Onshore and Offshore), and By Region (North America, Europe, Asia Pacific, Latin America, and Middle East & Africa) – Trends, Analysis, and Forecast till 2029”

Key Highlights:

- Due to increased drilling activity in shale plays in the region, North America is the largest market for drill pipe. Drill pipe demand has increased in the region as a result of the recent development of shale plays, horizontal drilling, and fracking.

Analyst View:

Drill pipe is projected to be driven by factors such as increased exploration activities and a focus on developing new oil and gas reserves. The drill pipe industry, however, has slowed due to the unpredictable nature of oil prices in recent years, which has resulted in less exploratory activities. The onshore segment is predicted to hold the largest market share. Onshore drilling refers to all drilling operations that take place on dry ground and accounts for 70% of global oil output.

The demand for oil and gas production has always been on the rise, which has resulted in increasing exploration efforts, which is projected to aid the market's growth over the forecast period. The overall number of rigs has climbed by 18% since the beginning of the year, when there were 933.

Key Market Insights from the report:

Global Drill Pipe Market accounted for US\$ 5.34 billion in 2020 and is estimated to be US\$ 10.98 billion by 2030 and is anticipated to register a CAGR of 7.5%. Global drill pipe market is segmented in the basis of grade, end user and region.

- Based on Grade, Global Drill Pipe Market is segmented into API Grade and Premium Grade.
- Based on End-User, Global Drill Pipe Market is segmented into Onshore and Offshore.
- By Region, the Global Drill Pipe Market is segmented into North America, Europe, Asia Pacific, Latin America, and Middle East & Africa.

Competitive Landscape & their strategies of Global Drill Pipe Market:

Key players in the global drill pipe market include Superior Drillpipe Manufacturing Inc., Tenaris Company, Drill Pipe International LLC, DP Master Manufacturing Pvt Ltd., Shanghai Hilong Drill Pipe Co. Ltd., RK Pipe Corporation, TPS TECHNITUBE RÖHRENWERKE Pvt Ltd., and Interdril Asia Ltd.

The market provides detailed information regarding the industrial base, productivity, strengths, manufacturers, and recent trends which will help companies enlarge the businesses and promote financial growth. Furthermore, the report exhibits dynamic factors including segments, sub-segments, regional marketplaces, competition, dominant key players, and market forecasts. In addition, the market includes recent collaborations, mergers, acquisitions, and partnerships along with regulatory frameworks across different regions impacting the market trajectory. Recent technological advances and innovations influencing the global market are included in the report.
