Key Market Insights from the report:

Global Construction Software Market accounted for US\$ 1.02 billion in 2020 and is estimated to be US\$ 2.10 billion by 2030 and is anticipated to register a CAGR of 7.50%. The global construction software market report segments the market on the basis of type, application, and region.

- Based on Type, Global Construction Software Market is segmented into Installed-PC Software, Installed-Mobile Software, and Cloud-based Software.
- Based on Application, Global Construction Software Market is segmented into Building Owners, Independent Construction Managers, and Sub-Contractors.
- By Region, the Global Construction Software Market is segmented into North America, Europe, Asia Pacific, Latin America, and Middle East & Africa.

Competitive Landscape & their strategies of Global Construction Software Market:

Key players in the global construction software market includes Aconex Ltd, Procore, Oracle Corp, Viewpoint Inc, Odoo S.A, Buildertrend, CMiC, Sage, Co-construct and Jiansoft.

The market provides detailed information regarding the industrial base, productivity, strengths, manufacturers, and recent trends which will help companies enlarge the businesses and promote financial growth. Furthermore, the report exhibits dynamic factors including segments, sub-segments, regional marketplaces, competition, dominant key players, and market forecasts. In addition, the market includes recent collaborations, mergers, acquisitions, and partnerships along with regulatory frameworks across different regions impacting the market trajectory. Recent technological advances and innovations influencing the global market are included in the report.
